Dear Governor,

Thank you for your letter of 11 October 1988. The two Rapporteurs have suggested some modifications to your table and they will very shortly transmit them to you. If you agree, I think that the best procedure would be for you to fill in the table for Denmark, and then to circulate it to the other members of the Committee to ask them to do the same for their countries. I think that it would be useful if you urged them to have the completed forms available for the November meeting.

Yours sincerely,

Jacques DELORS
