

SCOREBOARD

Corporate Actions -H1 2024

Bulgarian NSG

Background

Since publication of the Collateral Management Harmonisation Report in December 2017, the Advisory Group on Market Infrastructures for Securities and Collateral (AMI-SeCo) has made a number of significant breakthroughs in its ambition to create a Single Collateral Management Rulebook for Europe (SCoRE).

What is SCoRE?

SCoRE defines common rules for managing collateral in Europe. These rules will replace the fragmented legacy standards, structural constraints and complex and diverse market practices that exist across Europe today. Implementation of SCoRE should remove operational impediments to the availability, usage and mobility of collateral. Market participants in AMI-SeCo have committed to implementing the SCoRE Rulebook, with the first set of rules due to be implemented by November 2024. Their implementation efforts are regularly monitored by AMI-SeCo which facilitates an active dialogue with market participants on issues related to the clearing and settlement of securities and to collateral management.

National stakeholder groups (NSGs) are coordination forums that have been established in the markets covered by the AMI-SeCo to support the implementation of the Single Collateral Management Rulebook for Europe (SCoRE).

The Single Collateral Management Rulebook for Europe contains 15 Standards related to the processing of corporate actions (published as the SCoRE Standards for Corporate Actions). Implementation progress is monitored twice per year.

Introduction

This summary report presents the results of the H1 2024 monitoring exercise conducted by the Bulgarian NSG with the involvement among the following stakeholders:

12 entities are monitored in the Bulgarian market

- 2 CSDs CD AD, BNBGSSS
- 5 Custodians
- 5 Issuers

In this monitoring exercise, participants were expected to have achieved all the milestones up to Milestone 11 inclusive "Final external communication on SCoRE" (with a deadline of 22 May 2023) as described in section 3 below.

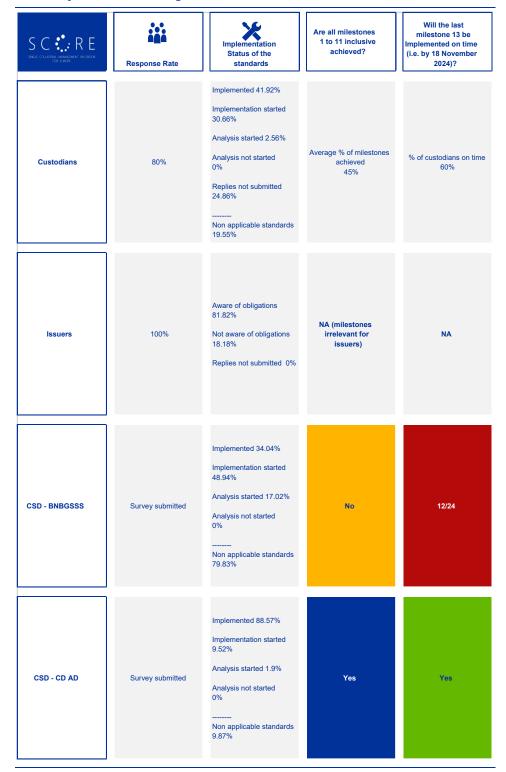

Section 1 presents the key takeaways per entity type i.e., CSD, TPA, Custodian etc. Section 2 depicts for each entity type their compliance status with the standards. Section 3 provides an overview of the progress against the individual milestones and Section 4 focuses on concluding remarks.

1 Key takeaways

Both CSDs, representative custodians and issuers in the Bulgarian market participate in the H1 2024 monitoring exercise

Both CSDs, representative custodians and issuers participate in the H1 2024 monitoring exercise. The process of facilitating communication is to ensure that the full coverage of participation continues. As a result, the participation rate for custodians, issuers and CSDs are 80%, 100% and 100%, respectively. This section presents the key findings of the survey for each entity type.

Figure 1
Summary of the monitoring exercise

CSD - CD AD

CD AD implementation is currently on track

CD AD is compliant with 10 of the 15 Corporate Actions Standards. For standards 1, all sub-standards are met with exception of 1C. The implementation of this substandard is on schedule. Work on the implementation of Standards 2 and 15 is already underway. Standards 5 and 12 are marked as N/A.

CSD - BNBGSSS

BNBGSSS implementation is currently on track

BNBGSSS only acts as Issuer CSD for government bonds. Accordingly, it reports that a large proportion of the Standards are not applicable to the activities covered by the CSD. The applicable standards are already implemented or work on analysing and implementing is underway.

Custodians

Custodians participation continues in the H1 2024 exercise

At the time of H1 2024 SCoRE monitoring exercise the process of facilitating communication in order to ensure full coverage of participation continues, thus insuring input from the custodian community. Most of the applicable standards are already implemented or work on analysing and implementing is underway.

Issuers

Issuers participation continues in the H1 2024 exercise

At the time of H1 2024 SCoRE monitoring exercise complete input from the Issuers community is ensured. Awareness of their obligation to provide information to the Issuer CSD is confirmed for all of the applicable standards.

2 Compliance with the standards

This section provides an overview of the current status of compliance with the corporate actions standards. CSDs and TPAs are monitored on an individual basis and are assigned a colour-code status in accordance with the methodology outlined in Figure 2 below. Custodians are too many to represent individually. Thus, the replies of custodians from the AMI-SeCo community participating in the monitoring are presented on an aggregated basis per market and assigned a percentage representing their compliance status.

Figure 2Standards implementation status as defined in the AMI-SeCo framework document

- The Standard has been implemented
- Implementation of the Standard is on schedule (based on the agreed milestones)
- Implementation is behind schedule (based on the agreed milestones)
- Implementation has not started

Notes:

- For CSDs and TPAs the colour-code reflects the current implementation status of each Standard in accordance with the methodology outlined in Figure 2 above.

 TPAs the colour-code reliects the current implementation of triparty specific workflows described in Standard 1.

 For custodians the % indicates the percentage of custodians which have implemented the standard or have the standard under development and
- implementation.
- Insurance and the confirm awareness of their obligation to provide all relevant information to the Issuer CSD (on a Yes/No basis). The % reflects the number of issuers who responded yes to the survey. NA responses are not included.

 Percentages are calculated on the basis of expected respondents, i.e. number of entities monitored in the market.

3 Progress towards the milestones

This section tracks market stakeholders progress in implementing the Standards against the 13 set milestones identified by AMI-SeCo.

The milestones facilitate consistent implementation across markets (given the long-term efforts that are needed) and avoids issues remaining undetected until the deadline to achieve compliance and implementation of the standards.

Table 2Milestones identified by AMI-SeCo

Notes: N/A

The current H1 2024 monitoring exercise focuses on milestones 1 to 11 given that Milestone 11 "Final external communication on SCoRE" (with a deadline of 22 May 2023) was meant to have been achieved by the time the survey closed.

In each survey round, all the entities are asked to confirm (on a yes/no basis) whether the milestones will be met by the set milestones dates. If it is not the case, they are also asked the expected date for when the milestone will be reached.

For the milestones which had to be achieved by the time the survey closed: the blue colour code is assigned to those milestones that have been successfully achieved.

Milestones that will only be achieved later than their set deadline are assigned a yellow status with indication of the likely date of achievement.

For the milestones that are only due to be achieved after the current reporting cycle: the green colour code indicates that the entity anticipates achieving that future milestone on time. A yellow status indicates that the milestone is foreseen to be met later than the set milestone date. In this case, the date of achievement anticipated is also indicated in the table.

Table 3Entities' expectation of achieving the milestones at the set dates

	Custodians	CSD - BNBGSSS	CSD - CD AD
